

MD2400 FIBRE OPTIC CONVERTER RTR – SINGLE MODE ST - Art. 244300 -

DATASHEET

- Dimensions (H x L x W): 96 x 99 x 25mm
- Optical fibre type: Single Mode (8/125µm or 9/125µm)
- Supply voltage : 12 – 48Vdc
- Current consumption : 62,5mA@24Vdc
- Wavelength : 1310nm
- Operating temperature: -20°C to +70°C
- Humidity: 5% à 95% RH (no condensation)

SUITABLE FOR : | MD2400L | MD2400 |

DESCRIPTION

The MD2400 fibre optic converter RTR – Single Mode ST is used for the connection, via fibre optic, of the redundant Token-ring between the C.I.E. MD2400L and/or the C.I.E. MD2400.

The distance between 2 C.I.E. is maximum 20km. The optical fibre converter is suitable for Single Mode optical fibre and is equipped with ST connectors for connecting the optical fibre.

The MD2400 fibre optic converter RTR – Single Mode ST converts the RS485 data signal from the MD2400 Token-ring to an optical fibre signal and vice versa.
