

WATERPROOF HEAT DETECTOR A2S WITH BASE AND GLANDS

- Art. RA-HD6295 -

DATA SHEET

- Can be used both indoors and outdoors in high humid environments
- Supplied with connexion box with 3 cable inlets with compression glands
- A silicon gasket for IP67 protection also attached
- Static response temperature: 57°C
- Operating temperature: -40°C to +50°C
- Ingress protection rating: IP67

TECHNICAL DATA

Materials	Case: ABS Protector & junction box: modified polycarbonate
Colours	Gray
Dimensions (Ø x H)	100 x 75 mm
Supply voltage	12 – 30Vdc, nominaal 24Vdc
Alarm resistance	± 400Ω
